# VDA Standards

### VDA Standards

- The VDA methods and requirements (VDA Standards) are developed by German automotive industry which consist of most experienced OEM und supplier experts.
- The VDA Standards are published in English and Chinese language.
- These standards & methods define the "state of the art" of quality management in the German automotive industry; The German Automotive Industry constantly further develops the standards.
- Only VDA QMC has genuine access to the latest revisions of VDA standards/trainings and knowledge.
