Global Materials Management Operations Guideline/ Logistics Evaluation (Global MMOG/LE)

English version

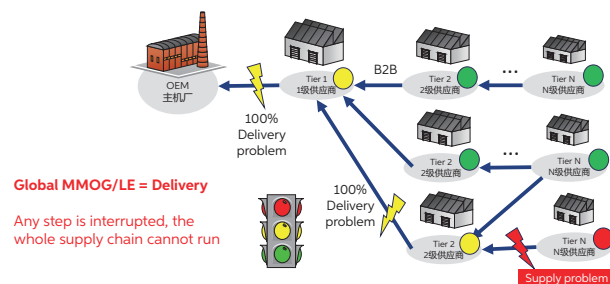

Global Materials Management Operations Guideline/Logistics Evaluation (Global MMOG/LE)

Why MMOG/LE is important?

With the globalization and digitization development of automotive supply chain, the risk of constantly supplying is continuously increasing. With the resurgence of Global trade protectionism, it will be more challenging to ensure the constantly supplying of automobile supply chain in the future. Based on the risk of constantly supplying, more attention will be paid to the smooth operation of automobile supply chain.

Challenges for sustainability supply

Any step-in supply chain is interrupted, the whole supply chain cannot run e.g., IC of ECU case in 2020. In this background after American OEMs, the German OEMs and some of Chinese OEMs has start to request it (CSR).

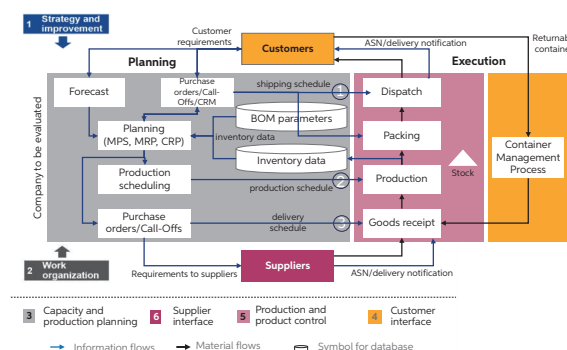

Introduction of MMOG/LE

MMOG/LE V6 was official released in Q2 of 2023. Are you and your organization ready?

The Global Materials Management Operations Guideline / Logistics Evaluation (Global MMOG/LE) is an established industry standard that provides a unified assessment procedure for evaluating automotive logistics suppliers. The tool enables OEMs and suppliers to assess the logistical performance capabilities of the (sub)suppliers and the internal processes. It focuses on the following aspects:

- Unified evaluation of supply chain management, for both internal and external use
- Definition of supply chain management components in order to support continual improvement and enhance supplier performance
- Basis for benchmarking and identifying best-practice criteria

Material and information flows (Global MMOG/LE Chapters 1-6)

Purpose and goals of Global MMOG/LE

- Provides an essential frame for Supply Chain Management process

- Comprehensive assessment of SCM performance and capabilities
- Usable by all participants in the supply chain (internal and external)
- Best supply chain practices for suppliers of goods and services in the automotive industry
- Measurement and evaluation of own supply chain proves and those of all suppliers (customer perspective/supplier perspective)
- Enabling supply chain partners to implement continuous improvements
- Increase customer satisfaction
- Enables IATF16949 compliancy

About MMOG/LE Training

Target Attendee

Logistics, Purchasing, Managers and employees in supplier management / supplier integration.

Training Objective

This training provides an overview of GMMOG/LE including its objectives and benefits; it explains how to prepare for a supplier evaluation, plan the evaluation, analyze the results and draw up an action plan.

- You understand the structure of Global MMOG/LE.
- You know the Global MMOG/LE criteria for assessing suppliers.
- You are able to apply the tool and know what features should be included in a supplier evaluation process.
- You can analyze results from the Global MMOG/LE, draw up effective action plans and know how to apply the Global MMOG/LE tool correctly.
